The information presented, highlighted the simplest things to make their journey to and from work safer. Equipped with new knowledge and awareness about personal safety the delegates left the presentation informed and confident.
- This is the 5th personal safety presentation Prince's SNT have delivered. Local businesses work in partnership with their local SNT to give their staff the opportunity to engage with local officers and learn about personal safety for their journeys to and from work.

- PC Swinburn and PCSO'S Tanner, Cloke and McMahon were patrolling the York Hill Estate when they saw a male acting suspiciously after coming out of a bin shed. They approached the man and spoke to him; PC Swinburn then conducted a search of the bin shed. The search revealed a black carrier bag; inside the bag was a silver revolver with two rounds of ammunition, a kitchen knife was also found.
- The man was arrested for possession of a firearm and has been bailed to return in 9th January 2009.

Coldharbour Ward

- A small team of officers have began to deliver the Diamond initiative on Coldharbour Ward.
- The aim is to increase community cohesion and drive down crime via joint working with the London Probation Service and resettlement workers from Lambeth Borough.
- The Team will target and supervise those released from short prison sentences, to return home to the Ward. The aim is to cut re-offending by this problematic yet currently unsupervised group through day to day intervention in their lives.
- The joint approach allows for those who want to move on from a life of offending almost instant access to people who have the skills to cement and assist with that decision.
- The team will also ensure rigorous supervision of people living on the Ward who have been made subject of an unpaid work order by the Courts.

Dispersal Zone in Waterloo

- Bishops Ward SNT working with Community Safety to introduce a Section 30 Dispersal Order in Waterloo for duration of six months.
- It is envisaged that the order will go live from 5th Jan 2009
- Waterloo has recently suffered from a rise in crime, anti social behaviour, street drinking and rough sleeping as a result of an increase in the street population.
- Many of these individuals are migrant workers from the A10 Accession states of Eastern Europe who have been affected by the recession and subsequent downturn in the building industry. They have no recourse to public funds - which included treatment services and accommodation and are therefore destitute on the streets of Waterloo
- We will be working in close collaboration with our partners including Thames Reach street population outreach team and Bishops Safer Neighbourhood officers to identify solutions on a case by case basis

Glossary

‘Sanctioned’ and ‘Non Sanctioned’ Detection Definitions

A ‘Sanctioned’ Detection is where an allegation has resulted in either a charge, a summons, a caution, a formal warning, a youth reprimand or an offence being taken into consideration i.e. in addition to the charge for which the person is before a court, other offences can be admitted by the defendant and the court asked to take these offences into consideration in passing sentence.

A ‘Non-Sanctioned’ Detection is where a crime has been committed and recorded and:
A suspect has been identified and interviewed by a police officer or, if an interview is not necessary to determine guilt, had at least been informed that the offence has been detected.
There must be sufficient evidence to charge the suspect with the crime.
If the victim subsequently refuses to give evidence, then a reason for this decision has been documented.
In the case where there is an identifiable victim, the victim must have been informed that the crime has been detected or in the case of a child, the parent or guardian has been informed.
