

Stockwell Resource Centre SW4 6RA Tuesday 01 February 2011

Apologies: David Boyle Rod Brown, Brian Mantell, George Marsham, David Tomlinson, George Tuson, John Wainwright.

Val Shawcross, MPA Link member for Lambeth (for early departure)

Attendance – see end of the minutes.

* Minutes in ***bold italic*** indicate action points

Welcome

- 1 The Chair, Clarence Thompson, welcomed everyone.
- 2 A special welcome was given to Pauline Bower to this her first meeting since her illness.

Minutes of the 11 January 2011

- 3 The Minutes were agreed with the following amendments:
 - 3.1 Amend [Minute 9, 11/1/11] to read "... a number of it's youths ..." and not "... Lambeth youths...".
 - 3.2 Amend [Minute 21, 11/1/11] as per a typewritten note from John Howard - "He pointed to the use of highly paid consultants by Lambeth Living and also the scale of councillors' allowances." to instead read "He pointed to the continuing use of highly paid consultants by Lambeth Council and the disastrous performance of the ALMO, Lambeth Living, which was pouring millions of pounds down the drain and should be axed immediately – and questioned the scale of Councillor's allowances in this time of austerity."

Matters Arising

- 4 Jim Toohill (Lambeth CPCG Honorary Comptroller) confirmed to Lloyd Leon [Minute 9, 11/1/11] that a presentation on Joint Enterprise has been scheduled for the March meeting. If

anyone wants to suggest a theme for a future meeting they should contact the office.

- 5 The Chair explained that Code 7 [Minute 12, 11/1/11], is a gang prevention group, working with young people. The group has been offered, by the London Borough of Lambeth, a lease on new facilities which require refurbishing. He added that the negotiating officers had done a sterling job.
- 6 Val Shawcross, in response to Richard Dutton's query [Minute 16, 11/1/11] stated that as a result of "the cuts", London Councils had recommended a new regime, and after a lot of research on the changes to Taxi-cards, she had concluded that we should be trying to rescue the double swiping facility. She would therefore be taking this up with the London Councils.
- 7 John Howard, citing newspaper articles, elaborated on the need for Lambeth Council to 'get its house in order'. He made specific reference to losses in the ALMO [Minute 21, 11/1/11]. He added that if these cuts were to go ahead it would be a very big matter for the CPCG as there will be lots of young people out on the street who might become involve in crime then the Police will have to deal with that. [Minute 24, 11/1/11]. Ros Munday asked if any investigation had been carried out into the overspend of £8.5m, within the ALMO.
- 8 Councillor Rachel Heywood (Lambeth Cabinet Member for Communities and Community Safety) stated that the Chief Executive, of the ALMO, Cathy Deplessis, had resigned and a Housing Commission had been set up with the first meeting set for the next week. It is tasked with looking at the future of Social Housing. Another commission will be set up to look at the potential impact of changes to Housing Benefits. Focus is on vulnerable groups and if anyone wants to be involved they should contact her.
- 9 Councillor Rachel Heywood continued that she was unsure whether there would be a police investigation. If £8.5m had gone missing, it would be thoroughly and appropriately investigated by the correct "bodies". She added that "the cuts" have to be made because of cuts from Central Government. ***She will pose the question to her colleagues and ask if they are prepared to provide a proper comment.***
- 10 David Prichard-Jones stated that he found the Lambeth Living (the ALMO) discussion most

- objectionable - it was not a matter for a CPCG meeting as it is a completely different organisation.
- 11 Val Shawcross responded to a query from Lloyd Leon by saying that the Freedom Pass is safe. The age qualification will rise (in a graduated way until 2020) when one must be 65 years old to qualify for the pass.
 - 12 Donna Sinclair (Options for Change) stated that Cllr Heywood made reference to Central Government cuts but it is actually a '3-party cuts' as none of the politicians have resigned. Cllr Heywood responded out that Labour was not in Government and if Labour representatives stood down there will be no one to fight for Boroughs such as this. She would be happy to get her colleagues together to talk at a special focus meeting. Jim Toohill reminded the meeting that, even in these passionate times, constitutionally speakers at CPCG meetings must strive to remain non-party political.
 - 13 At the Chair's instigation a separate public meeting was preferred over having "the cuts" as an agenda item at the next meeting.
 - 18 Significant figures were being changed and therefore meetings about the impact of budget will be timely.
 - 19 There will be a consultation to remove the Stop and Account monitoring but the MPA and the Met will continue reporting this until June 2011.
 - 20 The MPA will cease to exist after October 2011 – its role will be undertaken by the Mayor's office.
- Val Shawcross then responded to questions put to her.
- 21 Richard Dutton asked whether these cuts would be via natural wastage or redundancies. *Police Officers are Crown employees, unlike PCSOs and civilian staff, and cannot be made redundant. From 900 to 1100 Officers will be lost through retirements per year. All Police services are front line. Senior Managers have to manage with the budget they are given. As Officers deplete the potential for good partnership and preventative capacity are lost.*
 - 22 Lee Jasper asked what was the situation with regards to CPEGs. Jim Toohill informed the meeting that the Policing budget could be located on the Internet, but that it included only one line entry for the whole of the MPA, which would include CPEG funding. However, he said CPCG had had an informal steer, as noted in the briefing, which suggested cuts of 15 to 20 per cent in 2011/12 and possibly 50 per cent beyond that. He said that CPCG Lambeth was in a good position to absorb the first round of cuts, having covered a staff vacancy with voluntary effort this year, in anticipation of what was to come. For the longer term, discussions had begun with Southwark CPCG to examine ways of saving costs.

MPA Link Member for Lambeth

- 14 Val Shawcross introduced herself and gave an overview of the most recent MPA full authority meeting on 27 January.
- 15 Concern had been voiced regarding "Kettling" - specifically whether or not there was enough confidence in the practice in light of the dangerous crushing on Westminster Bridge.
- 16 Although the MPA has no powers to vote on operational matters, they had voiced their concern in the "phone tapping" issue.
- 17 The MPA had received an overview budget for the Police in London the day before their meeting. There will be a 5% cut this year and over the next 3 years there will be 2.5K fewer staff, a freeze in recruitment, loss of PCSOs and fewer Sergeants in the Safer Neighbourhood Teams. The budget lacked details – with no information about Lambeth BOCU, for example - so the MPA had refused to vote on the budget and therefore it returned to the Mayor's office without the MPA's endorsement.
- 23 Lloyd Leon thanked Val Shawcross and stated that these cuts will have a far-reaching implications and made reference to the data in [Minute 39, 11/1/11].

Trident OCU Police Report

- 24 Detective Supt Gary Richardson from Trident thanked the meeting for his invitation then gave an overview of Trident. Trident has a remit to take responsibility of all non-fatal shootings and

all shootings where the victim and suspect are from the black community.

- 25 Trident consists of 350 Police Officers, 90 Police Staff, 4 Murder Teams, 3 Shooting Teams, 5 Proactive Teams and a Community Engagement Team who visit schools etc. Cheryl Sealey, a member of the Trident Independent Advisory Group and of CPCG, could also be contacted for further details of the work carried out by Trident.
- 26 Talking about individual murders would take too long but everyone should be aware that a murder investigation will remain open and on Trident' "books" for any number of years until it is solved.
- 27 Thus far, in Lambeth, there has been no firearms related murder for this Financial Year.
- 28 In March 2010, a 22-year old man, whilst trying to mediate a situation, was shot dead in the Central Hill Estate and 6 people were charged. The Jury was "sent out" after 6½ hours of summing up by the Judge. The group had been convicted on joint venture and will serve more than 100 years in total.
- 29 In September 2009, through a small opening in a window in Tulse Hill, a 24-year old man was murdered with a Mac-10 pistol and died almost immediately. The pistol was recovered within 24 hours and 4 people were charged with his murder.
- 30 A young man who, after being shot at, mobilised his associates and friends to go in search of the perpetrator in Peckham. Two handguns were fired and unfortunately, as in such scenarios, it was not the intended targets that end up dead. An arrest was made within 6 minutes and charges of murder made – firearms and ammunitions were recovered. The young man who was shot at was convicted for 32 years but at his appeal, he was given a lesser sentence of 26 years. DS Richardson felt that re-trials and deductions are always tough on the victim's family.

Detective Supt Gary Richardson then responded to questions put to him.

- 31 Richard Dutton asked whether murder has gone down over the years due to the way Trident operated. *D/Supt Richardson stated that the number of murders fluctuates, last year it was 7,*

the previous year 14 and the year before that 18.

- 32 Lee Jasper asked whether Black on Black crime will remain with Trident or would they join another team(s); what is the proportion of black officers in Trident; how would the cuts impact on these strategic capabilities; what of community engagement in the form of advertisement or meetings etc. and what of the "snitching" campaign in Peckham and how does it affect Trident's reputation. Why are sentences so low? *D/Supt Richard stated that money needs to be saved but not at the expense of lives. He did not have the figures of BME officers in Trident – **BME officers figures in Trident will be forwarded** but informed the meeting of the mentoring scheme where all Detectives were given a presentation on Trident. Although Trident did not have a bespoke media campaign this year the Community Engagement is Media linked and favorable online feedback was received. This snitching campaign in Peckham was by an individual known to Trident, unhappy about the Witness Protection process and had therefore set up the website and posters. Snitching would be a good bespoke campaign subject. Legislation is clear; the reason why some sentences are low is usually due to the age of the assailants who are usually 17 - 18 years old.*
- 33 Myriam Hay (Forum for Portuguese and Spanish Speaking Communities – Lambeth) asked for an update on the shooting of a Portuguese man through his window in September 2010 (which was to be on Crime Watch that week) and on the January shooting in Brockwell Park. *Chief Supt Ephgrave responded that these were not being investigated by Trident but that he receives update on these cases, about which he can liaise with Myriam.*
- 34 Donna Sinclair declared that what people wanted was the assurance of safety. She referred to two young people who lost protection on the day they gave evidence. *D/Supt Richardson stated that the Police did whatever is required in order to support Witness Protection. He mentioned stumbling blocks that Trident sometimes encountered i.e. the Police have no power to instruct a local authority to house someone. Trident Independent members and community members explain the process and this have been successful.*

- 35 Cheryl Sealey introduced herself to the meeting and told of a successful joint presentation in Southwark. She clarified that her work was Independent.
- 36 Wesley Walters-Stephenson said that people's misconception of Trident goes back to lack the media campaign which leads to the fear of crime. It was agreed that it was to be 7 years minimum sentencing but those caught often have lesser sentences and therefore stop people from giving evidence. *The Met and Senior Managers value Trident. The Community Engagement Team deals with public campaigns but as Trident is primarily operational it is important that that operational edge is not lost.*
- 37 Fernando Senior asked for an update of the murders of Billy Cox and Andre Smart-Ford, four years ago. *Billy and Andre are part of current investigations being carried out in a variety of ways. If a murder has not been solved within 7-14 days then other means are incorporated. The community can help by not helping/enabling the murderer(s). It is important that we change the mindset that the victim "got what they deserved".*
- 38 John Howard stated that it was depressing to come to these meetings and hear about saving money – he thought Trident was about saving young lives. £200K was quoted – is there a value on a life? PCSOs – how many lives are they saving? *If something can be done and done cheaper then that's the right thing to do. Trident is doing things in a smarter way thus saving money. PCSOs do a very good job.*
- 41 Unfortunately, there has been an increase in Robbery – 12-13% rise from last year's. The increase is predominantly by schoolboys and happens between 3-6 pm, here and in other boroughs. Robbery is usually of small amounts and items and the threat of violence is often used. It usually occurs in locations such as transport hubs where two different schools meet on their travels. This was dealt with by means of officers at these hubs and at the school gates – this is ongoing.
- 42 Late night robbery figures are static and these crimes carried out by older offenders towards people on their own who were followed from e.g. a tube station. The police know the hot spots and are targeting them.
- 43 The detection rate is up and identification and prosecution of those caught will bear fruit in the longer term.
- 44 Knife crimes are up specifically, "knife-enabled crimes" which means that the robber says that they have a knife and the victim believes that they do, regardless of whether this is actually so.
- 45 The biggest issue is Most Serious Violence (MSV) crimes - GBH has risen this year remarkably. Approximately 40% are related to alcohol involving, predominantly, young men and therefore innovative ways to problem-solve this are being looked at. Ann Corbett (LBL Deputy Dir. Adult Services and Community Safety) said that there has been a lot of work regarding knife crime and MSV in partnership with Southwark. The problem is how to analyse the collected data - this will be discussed at a forthcoming summit meeting.

Lambeth Police Report

- 39 Chief Supt Ephgrave echoed the thanks of the Chair and the members to D/Supt Richardson for rushing down to Lambeth to present the information. He then provided an overview of the monthly performance statistics and an update on Operation Hannah.
- 40 The overall figures are down, the highest reduction in London. Gun crimes are significantly down from last year's - there has been a great success in the recovery of firearms. It does not end with the recovery but continues with forensics to find links etc.
- 46 Chief Supt Ephgrave was to attend a summit meeting with partners to look at problem solving approaches around serious violence e.g. GBH.
- 47 A subset of most serious violence is serious youth violence (both suspects and victims are young) with some claiming to be gang members – most of this happened earlier in the year but now on a declining trend.
- 48 Operation Hannah: the "go live" date is 14 February. An updated newsletter had been produced and would be circulated.
- 49 Chief Supt Ephgrave said that he is excited about Operation Hannah - it is built on the

premise that the current Police Officers numbers are retained. Promises cannot be made that there won't be changes in 2 – 3 years time but at the moment things are stable.

50 The best thing about Operation Hannah is that it puts Officers where people would want to see them and they would be more likely to be seen on foot than in cars.

51 Lots of opportunities can flow from Operation Hannah and he is proud of his team for what they've achieved in the short time since its design.

Chief Supt Ephgrave then responded to questions put to him.

52 Jim Toohill said that there is concern regarding the Policing budget which projected a decline of 3% pa in Officer numbers and 6% pa in Police Staff. He said that over the past decade there had been a 40% increase in Officer numbers Met wide, but only an 18% increase in Lambeth. He suggested that borough policing should be the last place from which losses Officers should be sought.

53 Lee Jasper stated that he was excited by Operation Hannah but asked if there was a Plan B? Also, fear of crime is off the Richter scale – do we have monitoring of gun and knife injuries at A&E as in Cardiff and Edinburgh? Work of the Met and surgeons' skills are saving life but are we getting a full picture? Given the cuts, is there any forward planning i.e. scanning the environment in conjunction with the Council? Last time we had cuts – youth crimes were projected to go through the roof and did. *Chief Supt Ephgrave stated that there a Plan B in that contingencies had been placed in the planning process. There is flexibility in the Plan and it can afford to take some "hits". Operation Hannah is a model and if the worse was to happen it will still be ongoing but with a re-organisation of the model. In the worse scenario - it will not be difficult to revert to our current arrangement, just irritating. There are officers at Guy's, Kings and St. Thomas' Hospitals to build relationships. There is a fine balance to adhere to regarding medical confidentiality. Every year the Police look at data and identify the biggest problems and so are prepared. The "Drivers" are looked at. He talks with young people in the borough and has learned that it is their perception of their right to meet when they go out. He was surprised that*

the young people felt that they were not able to travel a mile and a half to attend a recent meeting. This attitude he now understood but as yet does not have the answers.

54 ***The Chair agreed that the question of A&E monitoring and information sharing as requested by Lee Jasper would be explored further.***

55 Richard Dutton complimented the Chief on the Lambeth Police website.

56 Ros Munday informed the meeting that Operation Hannah has greatly supported amongst Safer Neighbourhood Panels and she hopes that it succeeds. She is worried that the information is not getting out, particularly amongst housing officers. *Chief Supt Ephgrave stated that the Met would be sharing the information with all Partnerships.*

57 Ann Corbett confirmed that there are indeed a long list who the information is/would be shared with which includes the Council and all its Partnerships, Neighbourhood Watch etc.

58 Arulini Velmurugu asked why are there are no statistics of crimes against disable people provided at CPCG's meetings. *Chief Supt Ephgrave affirmed that the statistics for crimes against disable people were presented 6 months ago and he will look into seeing how feasible it is to provide this statistics on a more regular basis.*

59 Arulini Velmurugu asked why are there no statistics of breeding dangerous dogs. Ann Corbett said that there was updated data on dog attacks but not much about dangerous dog breeding. Request for such-like information had been sent out to all Neighbourhood Watch co-ordinators.

60 Cllr Heywood stated that Operation Hannah is good and by aligning Police and Community Safety officers, a more focused and outwardly driven service will be achieved. She shared about a knife crime seminar with British and Irish surgeons which she had attended. Susan Deswarte informed the meeting that in a conversation with a consultant at St Thomas' she was told that knife crimes are getting worse. He will be attended her forum to address this

61 Gloria Gomez said that she had been a victim of crime twice in her home. What she really wants

to know is what can she and people like her can do to solve this problem.

- 62 Rosemarie Falaiye informed the meeting that Norwood now has a “doggy watch”. Dog walkers are enabled to inform the police if they see anything “dodgy”. Ann Corbett said “well done” to Norwood for their “Doggy Watch” and said that although there are updates on dog attacks there is a struggle to get intelligence on dog breeding - please forward any information to her.
- 63 Pauline Bower advised that care should be taken so that assumptions are not made that all dogs are dangerous. She asked if poverty is recognised as a “Driver” and whether there were any positives amongst “Drivers” She also asked if an indication could be given as to what crimes are currently being investigated. *Chief Supt Ephgrave said that yes there are positives. There needs to be a focus on things one can do something about. Poverty is acknowledged as a “Driver”. About 100 crimes are reported daily therefore if an answer is required about a particular crime he needs to be informed a few days in advance so that some research can be carried out and he can arrive with answers.*

Policing Protest

- 64 Paul Andell gave the meeting an overview of protesting and spoke about Section 44 of the Terrorism Act. He introduced a young student who spoke of his experiences whilst protesting.
- 65 Michael Hay, a 6th Form student, attended the protest of 24 November 2010 with other 6th formers and some younger siblings. The Police had cordoned off an area and vandalism was obvious. His friend’s 14-year old sister was refused exit. He was threatened with being battered and was beaten back when he tried to help a young girl who was in a group of people that was “horse-charged”. He could see no justification for not allowing him and others from providing help. The following week’s demonstration had a good atmosphere but stated that intimidating tactics were being used by the Police - taking protesters and dropping them off in another area with no chance of getting home. On the day of MPs vote regarding student fees he saw a minority of protestors committing crimes in front of Officers and not being apprehended. He thought that the Police seemed angrier. The Police should arrest people committing crimes not those shouting at a building i.e. Milbank. He believed that a lot could be learned from the CPCG meeting - he had an amazing experience, in a meeting with the Police in attendance. He would like to see changes in core police tactics.
- 66 Donna Sinclair said well done to Michael. She believed that there is a lot of work in order to move forward with protest management.
- 67 Shane Collins spoke of policing protest in regard to Green and Climate Change campaigns – involving undercover officers at huge expense. “Kettling”, he continued, means that people get very annoyed. There is no scrutiny and unlikely to be any – a large part of our Police force is out of control.
- 68 Lloyd Leon said that he was saddened to listen to the young man’s experiences. He believes that a small section of the Met is not learning from the killing of Blair Peach in similar circumstances. He repeated seeing a scene on TV of Officers kicking a young man – this causes anti-police feelings being built up he concluded.
- 69 Richard Moore said that many people will naturally support this young man but he had witnessed camera crews not filming when Police officers were being attacked but turning their cameras on when the Police went into the crowd. He stated that there are two sides to every story.
- 70 John Jefferies informed the meeting that he has been a Police Officer for 28 years and is a Police Federation representative within the Met, not just in Lambeth. He told Michael that he had spoken well – with passion. He declared that In this room everyone had a spirit of working together, wanting the same thing - the best for their families etc. He added that the Police primarily protect lives therefore to act on an individual may have been dangerous to him and the Police. He invited Michael to get involved by using his experiences of protesting to get the Police to help him and others in future.
- 71 Chief Supt Ephgrave said he echoed everything that was said to the young man – that it was a powerful testimony. Public Order policing is difficult to get right. He wondered if a Public Order presentation might be useful. He agreed with John Jefferies comments and added that it

is important to note also the successes of these types of policing strategies e.g. the Notting Hill Carnival.

Ice - Rink Proposal

- 72 Stuart Horwood, Chair of Brixton Market Traders Federation, introduced himself, Ben Tunstall, Chair of Friends of Brixton Market and Donna Sinclair CEO of Options for Change. Pope's Road car park where the Ice – Rink could be placed has been noted, in the Brixton Master Plan, as a “no go area”. There are problems with gangs and young people. The potential for open warfare on the street with gangs concerned the traders. Congestion around Pope's Road already exists, with people hunting for parking space and fights ensuing as a result. In light of the increase in traffic from Clubs and users of the would-be Ice – Rink. The reality is that opening hours will be 7am to 11pm daily along with events such as Hockey matches, with little separation between opposing teams and supporters. He asked what is the Police commitment in view of cut backs and what is being put into place?
- 73 Chief Supt Ephgrave responded that this was a very emotive issue. He did not want to be seen as either supporting or not supporting the ice-rink. Whatever the decision at the Planning Committee he would have to police it. Statutory requirements must be applied before the ice – rink is put up. Crime reduction principles would be applied. There will be no more policing resources due to the ice-rink.
- 74 Councillor Judith Best Streatham Wells stated that her issue is the safeguarding of our young people. The prospect of over 2000 revelers, mostly after drinking, leaving Brixton and the O2 Academy after 11pm is not a good mix with young people departing the ice - rink. She asked what strategies are in place? Parents are worried for Streatham youths feeling alienated and not coming down to Brixton.
- 75 Ben Tunstall stated that a letter was given to the council regarding the issues of gangs within a possible volatile situation. The response was akin to a slap with accusations of bad-mouthing Brixton and young people – no room was given for a debate. Ben said he would like to take a “measured statement” from CPCG to take to the next day's Planning Committee meeting.
- 76 John Gordon (Brixton Market Traders) said Brixton was once a safe-haven for drug-dealers. The Police will have to take resources from the Market towards the Ice-Rink. This is sad as the Council obviously see Brixton as an unimportant area. Therefore the situation will revert to what it was 6-7 years ago – with Brixton being known as a drug destination.
- 77 There was discussion of whether the ice-rink really would return to Streatham after three years
- 78 Lloyd Leon said this was a serious issue. Four years ago there was a murder at 3pm in Streatham and no one has been charged. It was gang related and gangs were not as prevalent then as they are now. He was not aware of “no go” area in Brixton. Lambeth Council does not listen – the worse place to put the ice – rink is at Pope's Road, he concluded.
- 79 Cllr Heywood confirmed that the Ice – Rink would be temporary. It was to be in the middle of her ward and she was working with Ann Corbett and Chief Supt Ephgrave with strategies regarding community safety and parking. Extra money was being asked for at the meeting the next day.
- 80 Jane Warwick reminded Cllr Heywood that the ice - rink was not a definite, and she must be careful, she spoke as though the decision was “*fait accompli*”.
- 81 Cllr Heywood stated that it was not definite. She was doing all she could to ensure that young people are safe. She had listened and invited those interested to attend the meeting the next evening to give their opinions.

Any Other Business

- 82 Noel Villa from Moorland Estate informed the meeting that the previous Tuesday there had been a hit and run incident. Two hours later the driver of the car returned to the estate but was not arrested. He asked why did the Police not arrest the driver and why did the Police not go to the hospital with the female victim? **Chief Supt Ephgrave said that he would look in to this matter and return with an answer.**
- 83 Thomas Esterine of Angell Town Project, said that he was on a plight. After 23 years of having

worked with the Met and the community, LBL have decided to close down the project. He requested CPCG's support.

DATE OF NEXT MEETING

**6. 00 p.m. TUESDAY, 01 March 2011
Lambeth Town Hall**

Lambeth Community-Police Consultative Group
Unit 58 Euro link Business Centre, 49 Effra Road
