Better Facilities = Better Services!

Every day your local police work hard to solve hundreds of crimes in Lambeth. With better facilities for our Officers and our Community we could solve thousands more. But we need your help to develop more efficient and effective services.

Come and talk to Lambeth Police on Monday 11th February 8.00-9.00pm at the Assembly Room, Lambeth Town Hall, Brixton Hill SW2. Refreshments will be provided.

Definition of rape & serious sexual offences

Serious sexual offences are defined as:
 Rape, sexual assault by penetration, sexual assault involving violence, causing a person to engage in sexual activity without consent (including attempts in each case) and other circumstances deemed to be especially serious by an Investigating Officer.

Aims of the investigation of rape and serious sexual offences

Primary aim
To investigate, identify and prosecute perpetrators to the satisfaction of the victim and community:

However, where a criminal prosecution of a perpetrator is not feasible.

Lambeth OCU

Secondary aim

To identify and pursue alternative courses of action (where appropriate with or by partner agencies) to ensure that victims receive a high standard of support and aftercare regardless of their intention or ability to support a prosecution

These aims are not, however, mutually exclusive. Where appropriate, both objectives should be pursued simultaneously

Lambeth OCU

Principles of the investigation of rape and serious sexual offences

When pursuing these aims, three over-riding principles guide the investigation of rape and serious sexual offences.

Principle 1

It is the policy of the MPS to accept reports made by any victim in the first instance as being truthful. An offence will only be considered as unsubstantiated after a full and thorough investigation.

Lambeth OCU

Principle 2

A SOIT trained officer should be with a victim of a serious sexual assault **within an hour** of a report to police.

Lambeth OCU

Principle 3

The victim's wishes on whether a case should proceed may only be overridden in exceptional circumstances (for example, where it is in the public interest to proceed with a case regardless of the wishes of the victim, as is sometimes the case with a linked rape series).

It is necessary to acknowledge here that Principle 3 does differ from domestic violence positive arrest/prosecution policy.
