Glossary

'Sanctioned' and 'Non Sanctioned' Detection Definitions

A 'Sanctioned' Detection is where an allegation has resulted in either a charge, a summons, a caution, a formal warning, a youth reprimand or an offence being taken into consideration i.e. in addition to the charge for which the person is before a court, other offences can be admitted by the defendant and the court asked to take these offences into consideration in passing sentence.

A 'Non-Sanctioned' Detection is where a crime has been committed and recorded and: A suspect has been identified and interviewed by a police officer or, if an interview is not necessary to determine guilt, had at least been informed that the offence has been detected.

There must be sufficient evidence to charge the suspect with the crime.

If the victim subsequently refuses to give evidence, then a reason for this decision has been documented.

In the case where there is an identifiable victim, the victim must have been informed that the crime has been detected or in the case of a child, the parent or guardian has been informed.
